

# The best way to teach isn't standing with your back to the class.

**Buy four CPS Chalkboards and get the fifth one free. That's five CPS Chalkboards for \$1,580, plus \$60 shipping and handling.**

Teachers need to be completely mobile so they can interact with their students. They need to be able to walk from desk to desk to review students' answers. They need to be able to work with all students to answer questions and solve problems, yet somehow still remain accessible for individual one-on-one instruction. **Teachers need a CPS Chalkboard in their classroom.**

The CPS Chalkboard lets teachers navigate any program on their computer using a wireless tablet and stylus. It gives them the freedom they need to teach from anywhere in the classroom.

Now when you **buy four CPS Chalkboards, you get the fifth one free.** Plus, each CPS Chalkboard comes with a free copy of RM Easiteach software that gives you the resources you need to create compelling lessons and stimulating activities across a wide range of grade levels.

Changing the Face of Education
