

Aligned with Core Curriculum Topics

Unique, Independent, High-Quality
Assessment Questions Expressly for
Student Achievement

The **ExamView® Learning Series** (*Learning Series*) is a collection of unique, high-quality questions that can be used for daily monitoring of student achievement and progress in the classroom. The *Learning Series* works in concert with **ExamView® Assessment Suite**—the industry’s leading classroom assessment tool—to produce study guides and formative and summative assessments using high-quality questions organized by discipline and aligned with state academic standards.

The *Learning Series* is currently available with correlations for **Colorado, Florida, Georgia, Kansas, Maryland, Michigan, Ohio, Tennessee, Texas, Virginia, and Washington.**

Assessments are only as good as the questions used to create them. With **ExamView Learning Series**, you have access to the highest-quality questions for creating assessments that measure and promote progress on academic standards at different cognitive levels.

The *Learning Series* employs the strictest development and review process for each of the over 9,500 independent questions in four core disciplines: math, reading, science, and social studies. Updated annually, all *Learning Series* questions encourage a student’s ability to analyze situations and apply higher-order thinking skills.

Math. The *Learning Series* math questions are organized by the following topic categories: Number Sense, Concepts, and Operations; Measurement; Geometry and Spatial Sense; Algebraic Thinking; and Data Analysis and Probability.

Reading. The *Learning Series* reading questions are organized according to reading passage. Reading passages include cross-curricular selections in a variety of genres, and each reading passage offers multiple questions that correspond to that passage.

Science. The *Learning Series* science questions are organized by the following topic categories: The Nature of Matter, Energy, Force and Motion, Processes that Shape the Earth, Earth and Space, Processes of Life, How Living Things Interact with Their Environment, and The Nature of Science.

Social Studies. The *Learning Series* social studies questions are organized by the following topic categories: History; Geography; Economics; Government; Citizenship; Culture; Science, Technology, and Society; and Social Studies Skills.

Core Curriculum Topic-Aligned Questions

The ExamView Learning Series offers more than 9,500 independent test questions in four core disciplines: math, reading, science, and social studies. With the added variations from dynamically updated content, educators have access to more than 351,000 questions.

	Total Questions	Static vs. Dynamic			Question Types					
		Static Questions	Dynamic Questions	Dynamic Iterations	Multiple Choice	Bimodal*	Short Answer	Numeric Response	Essay
